SUMMARY

Motivated Computer Science graduate specializing in Java programming, object-oriented design, data structures, and database development. Experienced in building end-to-end applications and handling real datasets through academic and personal projects. Looking for a Java Developer role where I can contribute clean, maintainable code and grow into backend or full-stack development.

PROJECTS

Deep Learning	Signature Verification System using CNN - Achieved 92.6% accuracy in classifying forged vs. genuine signatures. - Used CEDAR, GPDS-960 and BHSig260 datasets with a combined size of 68,520+ signature images. - Trained a CNN model using Python, TensorFlow and OpenCV for signature preprocessing. - Implemented standardized preprocessing across 3 dataset sources for consistent model input.
Image Processing	License Plate Detection and Recognition - Built a real-time license plate recognition system achieving 95% precision. - Combined YOLO-based detection with OCR (Tesseract) for end-to-end plate recognition. - Tested performance on 50+ real-world frames for evaluation and robustness. - Applied multi-stage pipeline including detection, ROI extraction and OCR-based text recognition.
NLP	WhatsApp Chat Analyzer - Analyzed chat data from 50 users containing over 10,000+ messages. - Processed 2,637 media files and 142 shared links for communication insights. - Applied NLP, Matplotlib and Seaborn to generate 5+ analytical visualizations. - Extracted trends such as user activity, message frequency, sentiment patterns and word usage.
Web Development	Quiz App - Developed a responsive quiz application supporting 3 languages. - Designed quizzes with 10+ interactive questions for improved engagement. - Executed dynamic scoring and feedback with updates under 1 second. - Built using HTML, CSS and JavaScript to support multiple UI flows per language.

SKILLS

Languages:	Java SQL Python HTML C
Tools & Technologies:	Git VS Code Jupyter Notebook MySQL OpenCV Matplotlib Pandas NumPy
Frameworks & Libraries:	TensorFlow Keras Scikit-learn OCR (Tesseract) Seaborn
Concepts:	Data Structures & Algorithms OOP Computer Vision Web Development

CERTIFICATIONS

Artificial Intelligence (AI)	IBM
Cloud Computing	Coursera
Web Development with HTML, CSS, JavaScript	IBM
Introduction to Big Data	Coursera
Getting Started with Git and GitHub	IBM
Introduction to Big Data	UC San Diego

EDUCATION

2021 - 2025	B.Tech in Computer Science and Engineering Malla Reddy College of Engineering and Technology (MRCET)	8.71 CGPA
2019 - 2021	Higher Secondary Education Sri Chaitanya Academy Junior College.	90.4 %
2018 - 2019	Secondary School Education GopiKrishna High School.	9.0 CGPA
